### SKILLS

---

HTML  
CSS  
JAVASCRIPT  
DJANGO  
MYSQL  
PYTHON  
DATA MANIPULATION  
DATA ANALYTICS  
DATA VISUALIZATION  
MACHINE LEARNING

### EDUCATION

---

THE ISLAMIA UNIVERSITY  
2021-2025  
BS COMPUTER SCIENCE

### PROFILE

---

I am an enthusiastic web development and data science intern with a strong foundation in both fields. I possess a keen interest in leveraging data to drive decision-making and enhance user experiences. With my knowledge of web development, data analysis, and basic machine learning principles, I aim to contribute to innovative projects that harness the power of data and technology.

### EXPERIENCE

---

#### Web Development Projects

##### *Personal Projects*

- Developed responsive music player using HTML, CSS, and JavaScript.
- Created an interactive e-commerce web application that enhances user experience using Django
- Developing a traveling website in Django as Final year project

#### Data Science Projects

##### *Personal Projects*

- Conducted data analysis on Pakwheels dataset using Python.
- Conducted an UCI heart disease prediction project
- Participated in various competitions in Kaggle.
- Stock exchange prediction in time series analysis
